

CALCULATIONS FOR THE PARTNER PROGRAM AGENT

The total ECN commission from attracted referrals of all levels for the last three months is \$160.00. The standard commission of the agent will be 15% of the ECN commission.

Standard commission: $\$160.00 * 0.15 = \$ 24.00$

Aggregate Operated Margin on the accounts of referrals at all three levels for the last three months:

Referrals of the first level: \$ 500,000.

Referrals of the second level: \$ 150,000.

Referrals of the third level: \$ 1.5 million.

Referrals of the third level: \$ 1.5 million.

Used Margin Range	Levels of distribution of commission		
	1st level	2nd level	3rd level
< 5 000\$	100%	100%	100%
5 000\$ - 15 000\$	110%	160%	200%
15 000\$ - 50 000\$	120%	220%	350%
50 000\$ - 130 000\$	140%	280%	525%
130 000\$ - 400 000\$	160%	330%	675%
400 000\$ - 1.05 млн \$	190%	380%	775%
1.05 млн \$ - 2.5 млн \$	230%	420%	875%
2.5 млн \$ - 5 млн \$	280%	460%	950%
> 5 млн \$	350%	500%	1000%

For the first referral level, we have the Standard Commission of \$24.00 and the coefficient (multiplier) for the standard commission at 1 (100%). The total volume of the Operated margin is \$500,000, which ranges from \$400,000 to \$1.05 million. The commission multiplier for this range is 1.9 (190%). As a result, we get: $\$ 24.00 * 1 * 1.9 = \45.60 .

For the second referral level, we have the Standard Commission at \$24.00 and the coefficient for the standard commission at 0.35 (35%). The total volume of the Operated margin is \$150,000 and is in the range from \$130,000 to \$400,000. The commission multiplier for this range is 3.3 (330%). As a result, we get: $\$24.00 * 0.35 * 3.3 = \27.72 .

For the third referral level, we have the standard commission of \$24.00 and the coefficient for the standard commission at 0.1 (10%). The total volume of the Operated margin is \$ 1.5 million and it ranges from \$ 1.05 million to \$ 2.5 million. The commission multiplier for this range is 8.75 (875%). As a result, we get: $\$ 24.00 * 0.1 * 8.75 = \21.00 .

Commission from referrals of the first level: $\$24,00 * 1 * 1,9 = \$45,60$.

Commission from referrals of the second level: $\$24,00 * 0,35 * 3,3 = \$27,72$.

Commission from referrals of the third level: $\$24,00 * 0,1 * 8,75 = \$21,00$.

The total remuneration of the trader-agent would be:

$\$45,60 + \$27,72 + \$21,00 = \$94,32$.
